TECHNICAL SKILLS

Cybersecurity: Network Security, Log Analysis, Threat Detection, Incident response,

Security Tools: Nmap, Wireshark, Autopsy, FTK Imager, OSINT, Kali Linux

Programming: Python, C

Operating Systems: Windows, Linux

PROJECT

Blockchain Based E-Voting system (Mini Project)

- Developed a basic blockchain-based e-voting system using Flask and SQLite.
- Used blockchain concepts and SHA-256 hashing to support secure and tamper-resistant voting records.
- Result: Demonstrated a basic secure and transparent approach for maintaining electronic voting records.

Technologies: Python, Flask, SQLite, Blockchain, SHA-256

INTERNSHIP EXPERIENCE

Cybersecurity Intern – Blue Cloud Softech Solutions Limited

June 2026

- Gained practical exposure to network analysis, and cybersecurity investigation workflows.
- Worked with FTK Imager and Autopsy for forensic examination and file investigation.
- Used Wireshark for network traffic analysis and understanding network connections.
- Performed basic network and asset discovery using Nmap, Angry IP Scanner, and Kali Linux.
- Studied networking concepts, threat hunting concepts, and security investigation techniques.
- Prepared technical documentation and presented cybersecurity-related findings.
